Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	[TYPE PROGRAM NAME HERE]	
INPUT	**PROCESS**	**OUTPUT**
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
User Input: The time (in minute) for 4 tasks include designing, coding, debugging, and testing	• First, the program is going to sum all 4 variables into the TotalTime variable. • Calculate the percentage of time for each task by taking the time spent on 1 task divided by TotalTime and multiplied by 100.	The output: The percentage of time (in minute) of 4 tasks
